

NEW HIGH FOR SOUTHERN OIL
ACREAGE PAID—BONUS OF
\$870 PAID FOR ONE PARCEL
IN MONARCH FIELD, EAST OF
MACLEOD

All previous records of bonuses for oil leases at the Lethbridge land office went by the boards Friday morning when a block of acreage in the Monarch field, 16 miles east of Macleod, fetched a bonus of \$870. Another parcel fetched \$530 and a third parcel \$300 bonus in addition

to the usual filing fees. The sale produced the snappiest bidding seen at the Lethbridge land office for months. The leases were in 9-23, 10-23 and 9-24.

Successful bidders for the Monarch acreage were the Canadian Western Natural Gas company, already interested in that area; the Lethbridge Petroleum owners of a block of acreage south of Kipp and adjacent to the Commonwealth Blood reserve holdings, and Carlyle Securities of Calgary, Vancouver

and Winnipeg, acting for eastern interests. Mr. Kelly was here looking after the filing for Carlyle Securities and to the Herald after the sale stated that while it rested with the parties they represented to make further announcements it was altogether likely that a development program would follow. They secured altogether 1080 acres.

HON. A. J. MCLEAN IS INJURED IN AUTO CRASH—MANY WEEK-END ACCIDENTS

A series of car accidents over the week-end detail stories of miraculous escapes but no fatalities.

In a crash near Okotoks on the Blue trail Sunday, Hon. A. J. McLean, former minister of public works and a well-known Southern Alberta rancher, sustained serious injuries to his knee-cap and is in the Calgary General hospital. Four cars were piled up.

On the Lethbridge-Macleod section of the Red trail at a point just east of Macleod Jack Delf's car was crashed into and badly smashed. Glass cuts only were suffered by the occupants of the car. The accident occurred Sunday evening.

Saturday morning a Lethbridge Chevrolet car owned by Dr. Robt. Bertach skidded in the gravel and turned over near Mountain View on the Waterton park road. A wheel was smashed. Miss K. Lederer and a child, two members of the party in the car, sustained minor bruises.

Side-swiped on the Macleod trail about 9:30 Sunday evening, four Lethbridge youths and two Iron Springs men had a miraculous escape from serious injury.

Hon. A. J. McLean injured Calgary, Aug. 19.—Hon. Archie J. McLean, rancher, of Macleod, formerly minister of public works in the Alberta cabinet under the Liberal regime, lies in the General hospital with a broken kneecap as the result of a pile-up of four cars on the Macleod trail four miles north of Okotoks at about 10:45 o'clock Sunday morning.

Elmer Beal, 13 years of age, had his left hand injured, and the escape of some of the other occupants of the cars was considered miraculous, as all four of the automobiles were seriously damaged.

Mr. McLean, whose kneecap was split completely in two, was brought to Calgary, while the boy was taken to Okotoks, where he was attended by Dr. A. E. Ardiel, Dr. L. S. Macleod attended Mr. McLean. Shortly following the accident, Detectives F. Russell and G. Harvey of the provincial police were on the scene conducting an investigation.

How it Happened
Three of the cars were proceeding south, the first driven by S. K. Beal, 922 Twelfth Avenue west, Calgary, the second by McLean, and the third by Percy H. Bennett, 128 Eleventh Avenue northwest, Calgary. McLean, it is alleged, left the line and attempted to pass the car driven by Beal, and collided with an automobile driven by J. R. Simpson of Tulsa, Oklahoma, coming from the opposite direction.

McLean's car was hurled over by the impact, turning completely over and crashing into the side of Beal's car. Bennett jerked his wheel over quickly as he slowed down, and was just going into the ditch when Simpson's car, which had swerved, struck him.

The result was a tangle so bad that it was fully two hours before traffic was resumed along the road. The car belonging to Beal had its front wheels and left fender smashed off, and an axle bent. Simpson's sedan was damaged, both front wheels being smashed, as well as both front fenders and the bumper. McLean's sedan was a complete wreck, so much so that its driver had to be extricated from it. A smashed front bumper, axle and one front wheel was the damage done to Bennett's car.

McLean was alone, but each of the other cars had from two to four persons in it.

And then there's the four-flusher who goes around bareheaded though he never set foot on a campus.

The thing to bear in mind, however, is that booze and crime are partners by nature, in all lands and ages, whatever the law is.

BRITAIN MULLTIED IN WAR DEBT OFFER — SNOWDEN'S REPLY MAY MEAN BREAKING UP OF CONFERENCE

The Hague, Aug. 17.—Rt. Hon. Philip Snowden, British chancellor of the exchequer, told the other creditor nations at the reparations conference today that if they cannot offer something substantial toward Great Britain's requests there is no use going on with the conference.

Chancellor's Reply
The Hague, Aug. 17.—Rt. Hon. Philip Snowden, chancellor of the British exchequer, today refused the compromise offer of France, Italy, Belgium and Japan to allow Britain an increased share of German reparations. The chancellor claimed it was insufficient to satisfy his government.

The chief delegates of the four creditor nations aligned against Great Britain as soon as they received Mr. Snowden's reply to their proposals to meet at noon and decide what further action to take.

The offer refused was that made yesterday by the four governments seeking to satisfy British demands for return to the Spa percentages for division of German reparations and other minor concessions. The four governments acted in an attempt to avert British withdrawal from the conference here on application of the Young reparations plan.

Mr. Snowden, in his refusal to consider the compromise further, said that instead of the 60 per cent of British claims it purported to offer, he, upon examination, had discovered it made available only 20 per cent, which was utterly unacceptable to his government.

Feeling around the Hotel Des Indes, headquarters of the credit powers, was that Mr. Snowden's reply meant the inevitable breaking up of the conference. The delegations immediately communicated with their governments. Even Mr. Snowden has kept in constant touch with Premier Ramsay MacDonald during the past two days.

Stresemann Sees Snowden
The Hague, Aug. 17.—Dr. Gustav Stresemann, German foreign minister, called on Right Hon. Philip Snowden, British chancellor of the exchequer, just before noon today. He refused to say whether his visit was for the purpose of mediation, but there was less pessimism around the German camp than elsewhere, and this was taken to mean that the chief of the Reich delegation, was endeavoring to prevent a complete break.

RESULTS OF MACLEOD- CLARESHOLM TENNIS TOURN- AMENT AT CLARESHOLM

On August 17th some twenty-three of the Macleod Tennis Club seniors journeyed to Clareholm, where they were taken into camp by the Clareholm Club. A most enjoyable afternoon and evening of play ensued. The Clareholm folk are good sports and the ladies carefully and most entertainingly looked after the social welfare of all. Clareholm won three fine courts and the Macleod players greatly enjoyed the playing and social interchange of friendship. Clareholm club as a result of the playing had somewhat of a lead. It is hoped that this can be wiped out and a good strong margin in favor of Macleod club established on the return of play at Macleod on Labor Day.

Scores were as follows:

Ladies' Doubles
McPhee and Amundsen 4—McNab and Fawcett 2.
Dickmeier Jr. and Reinecke 6—Townsend and Dean 0.
Thorne and Dickmeier 3—Kirk and Pinder 4.

McPhee and Thorne 3—Charlton and Kirk 4.
Munro and McAlpine 4—Taber and Dean 2.

King and Soby 2—McNab and Pinder 4.
Thorne and Amundsen 4—Pinder and McNab 0.

McPhee and King 2—Charlton and Kirk 4.

King and Thorne 4—Kirk and Taber 0.

BORDER RAIDS IN MANCHURIA —OUTLOOK DARK

London, Aug. 20.—Reports of border raids in Manchuria came last night from both Russian and Chinese sources, each accusing the other of taking the offensive and of violation of border peace. Observers here were reluctant to believe war impended over the Chinese railway dispute even though cases of frontier violence multiplied and both countries went forward with military preparations on a considerable scale.

Both Russia and China still asserted their intention to settle their difficulties peacefully unless the other forced her. Chinese sources reported the spirited expulsion of a body of three thousand Russian cavalrymen, supported by field guns, who at one time gained possession of the town of Tungningsten in Southeastern Kirin, Manchuria, and Mukden reported airplanes and searchlights on the way to the front.

Chinese Reinforcements
Tokio, Aug. 19.—Renzo news despatches from Manchuria, Manchuria, today said the first of the large Chinese reinforcement armies which are being rushed to the western Manchurian border had arrived there, equipped with machine guns and field guns.

A Mukden despatch to the same agency said that Governor Chang Hsueh Liang had appointed General Wang Shu Chang, commander of the Manchurian forces at present en route to the Siberian border, and had summoned a military council to meet at Mukden.

day of February following the open season.

Daily Bag Limits Saskatchewan
Ducks and Geese—30 of all kinds in one day, but not exceeding 10 geese, and 200 of all kinds in a season; but not in excess of 30 geese; Coots—25; Wilson's Snipe—25.

Daily Bag Limits Alberta
Ducks—30 in one day and not more than 200 of all kinds in a season; Geese—15; Coots—25; Wilson's Snipe—25.

Guns and Appliances
The use of automatic (auto loading), swivel or machine guns, or battery, or any gun larger than number 10 gauge is prohibited, and the use of any aeroplane, powerboat, sail boat or night light, and shooting from any horse-drawn or motor vehicle is forbidden.

The shooting of migratory game birds earlier than one hour before sunrise or later than one hour after sunset is prohibited.

Penalty
Every person who violates any provision of this Act or any Regulation shall, for each offence, be liable upon summary conviction to a fine of not more than three hundred dollars and not less than ten dollars, or to imprisonment for a term not exceeding six months or to both fine and imprisonment.

PREPARING PULLETS FOR THE
LAYING CONTEST

Much depends upon every step in the process of brooding and rearing whether the chick will eventually develop into a profitable layer.

Sanitary surroundings, simplicity in feeding, constant care, and regular attention especially during the mid-summer months are essential factors to be considered if satisfactory maturity is to be realized.

Under-developed or under-nourished pullets cannot be expected to do well when they enter the contest on November 1.

Selection
During early September begin selecting, keeping in mind that a bird's pedigree is very important. Provide a clean bright, comfortable house, equipped with trap-nets. A small, grassy yard should adjoin the building. This will reduce range conditions gradually.

If 12 pullets are required for the Contest pen it is good policy to select four times that number, mostly of the medium early maturing pullets, typical of the breed and free from standard disqualifications.

The late maturing pullets from any hatch should not be considered as they are generally low in vitality, while the extra early maturing pullets from like hatches are generally extra good layers, but are usually under developed and consequently will produce small eggs.

The purpose of the Laying Contest is to stimulate interest in the breeding of birds for egg production and large eggs, and to provide a medium of qualification for registration. As a result of a survey principally of the Single Comb White Leghorns in the Canadian Contests, it was found that birds well up to standard weight produced the most as well as the largest eggs. However, a few of the early maturing pullets can be selected which will help to keep the flock contented, and promote a gradual acquaintance with the traps and the owner.

Elimination
Every available moment should be spent with the selected flock, talking to the birds, studying their habits and eliminating the undesirable. When an alert, friendly bird, interested in its surroundings, always eating or looking for something to consume, is noticed catch and leg band her, for such a bird will generally give a good account of herself. Be gentle and handle the birds with care as many a good bird's chances of heavy production are handicapped through rough handling.

Feeding
Give the pullets plenty of dry mash, grit and oyster shell in self feeding hoppers; clean water; scratch grain; feed sparingly in deep clean litter morning and late afternoon, this encourages exercise; and a regular supply of green feed such as kale, lettuce, cabbage, mangels, or finely cut clover or alfalfa.

It is advisable to gradually work in the ration as used at the Canadian National Egg Laying Contests which are as follows:—Scratch grain; equal parts by weight of wheat, barley and oats; 10 per cent cracked corn and 10 per cent of bran, meal, and ground oats, 10 per cent beef meal, 5 per cent ground char-

TWO INJURED IN CAR CRASH ON RED TRAIL—MRS. JENNIE SCHUMER AND MYRTLE SCHUMER BADLY BRUISED IN ACCIDENT

Two cars, a Star and a Nash, crashed on the Red trail near Kipp Monday evening and two passengers in the Nash were badly bruised and are under the care of the doctor. Both cars were smashed. The injured are Mrs. Jennie Schumer of Welling and Myrtle Schumer, a young girl, of Welling, while other members of the Schumer party were badly shaken up. Occupants of the Star car apparently emerged from the crash without serious injury.

The Nash went over twice when the Star travelling north skidded in some loose gravel and caught the Nash car by the rear wheel upsetting it. The car is owned by Mr. Schumer, well-known farmer of Welling. The injured lady is a niece of Wilford Shields of Lethbridge. Dr. Spackman was called from Lethbridge and the police from Coalhurst and an inquiry into the accident was instigated.

Tuesday morning the injured were resting easier. Each car carried seven passengers and the marvel is that more were not hurt.

MACLEOD-CLARESHOLM WOM- EN'S INSTITUTE PROGRAM— AT GRANUM AUG. 30

The Alberta Women's Institute Macleod-Clareholm Constituency Conference will be held in Granum August 30. The conference promises to be one of the most interesting and instructive ever held in the Province; judging from the attractive program that has been prepared. The program follows:

Friday, August 30.—10 a. m., registration. Singing "O Canada." Invocation and creed. Address of welcome and greetings. Mrs. E. V. Skelting, Standoff branch. Greetings, Mrs. F. C. Aleck, Champion. Special music. Appointment of committees. Minutes of last conference and secretaries' report. Mrs. F. Laing, Clareholm. Discussion. Reports from W. I. branches, Standoff, Clareholm, Standoff delegate. Community singing. Reports from Macleod, Granum and Willow Creek branches. Nominations.

Friday 2 p. m.—Assembly singing. Convener's report. Mrs. D. W. Mulholland, Clareholm. Girl's Club reports, Harmony, Blue Bird and Starline. Special music. Reports of standing committees. Child Welfare and Public Health. Mrs. J. C. Strang, Clareholm; education and better schools. Mrs. E. P. Rowe, Standoff; legislation. Mrs. Perry, Macleod. Special music. Address. Mrs. F. C. Aleck, Champion. Immigration. Mrs. W. O. Hart, Clareholm; household economics. Mrs. Sandhu, Granum; agriculture. Mrs. O. Macleod, Clareholm; special music; Canadianization and national events. Mrs. Tilden, Clareholm; Canadian products. Mrs. Sutherland, Macleod. Election of officers. Unfinished business. Address. Mrs. H. J. Montgomery, Wetaskiwin. President of A. W. I. Community singing. "Save the King." A banquet will be given at 6 p. m. for all W. I. members and those taking part in the program, for which toasts and special music have been prepared.

coal, 1 per cent cod liver oil, and 1 per cent fine table salt.

It has been found at Ottawa that the heavy layers consume the most mash. Therefore the contestant should encourage dry mash consumption. The addition of an extra per cent of cod liver oil will make the mash all the more appetizing.

Keep a sharp lookout for lice and mites, particularly the latter.

Final Selection
About October 10, confine the remaining pullets which should not number more than half of the original selection. Do not give up selecting at this stage, especially for head-points, body conformation, style, ambition, and friendliness, until the 12 desirable birds are cooped in a comfortable crate ready for shipment.

Conclusion
Ever keep in mind that good breeding and good management go hand in hand, and the first essential of good management is that which is so much desired by the Laying Contest, Management, Healthy Stock. Write to the Publications Branch, Department of Agriculture, for a copy of Bulletin No. 108, "Report of the 6th, 7th and 8th Annual Canadian National Egg Laying Contest." It is free.

SUMMER MILK DRINKS AND
ICE CREAM

There are many evidences that the demand for milk drinks and ice cream is increasing rapidly. These dairy products are used more extensively in the summer months, and the hotter it is, the greater the demand.

The latter part of June and all July this year has seen a considerably larger consumption of milk over the counter for drinks. Of these, seven were noticed to order milk drinks. At the same time, nine children ordered an ice cream cone each.

On a hot day, milk drinks are very refreshing. If you don't think so, just try one! Chocolate milk drinks seem to be most popular, with buttermilk coming second. What is more refreshing than a nice cold drink of either of the former? From the health standpoint it is nourishing. This applies to grown-ups, while children still stay by the ice cream cone or sandwich.

The United States tourists are heavy milk drinkers. However, before ordering milk, they generally ascertain if it is pasteurized.

In order to meet this increased consumption during the hot weather, the milk distributors make extra preparation so that their sales may be larger. The larger the milk distributors' sales of milk, the better it is for the dairymen.

Quite frequently we find that milk distributors are discriminating in their advertising of milk, and are putting out some very attractive advertisements. Milk sales are in direct competition with all kinds of soft drinks, which are advertised extensively, but the actual health value of milk drinks is away ahead.

Attractive publicity, such as is put out by the Dairy & Cold Storage Branch and the National Dairy Council, together with co-operative advertising by milk distributors in cities today,

undoubtedly increases milk drinking. This will be for the health of the people. It is within the range possibilities that Canadians may become as great users of the lactical fluid as the people of Denmark and Sweden, where nearly a quart per capita per day is consumed—almost double what is consumed by Canadians. We find that roadside stands are making a bid for the milk drink business and are using various methods of advertising to draw the trade. Occasionally these places have installed electric refrigeration which keeps the milk, chocolate milk and buttermilk cool without chopped ice, as is used in many cold drinks.

The consumption of ice cream greatly increases during the hot weather. As we have already said, the "kiddies" prefer the ice cream cone to the drink. The ice cream brick is becoming popular among householders as a dessert or evening treat. It is claimed that the people of the United States are the greatest ice cream eaters in the world, consuming 143 cones per capita, as against 63 cones consumed by Canadians. "The ice cream industry uses a large quantity of the surplus milk and cream during the summer months. The increased use of ice cream in these months fits in well with the dairy business by using part of the surplus milk which cannot be sold as fluid whole milk."

Scientists say mortals eventually will have great minds and very little body. Present efforts along these lines indicate that the two results will be achieved by two distinct groups.

Correct this sentence: "Nobody will know us at the resort," said the wife, "so I won't need any new clothes."

The reason we have cynical, sexy looks is because some writers don't live outdoors enough to develop a good digestion.

"The Alberta Wheat Pool Expects Every Pool Member Will Do His Duty."

If At All Possible

Deliver All Pool Wheat to Pool Elevators

Pool elevators can handle Ninety Per Cent. of all Pool Wheat.

With a short crop this year it is imperative that Pool elevators should handle as much grain as possible.

Pool members' safety and the protection of the Six Million Dollars invested in Pool facilities demands that every possible bushel of Pool wheat that can be delivered to a Pool elevator should go there.

Two cents a bushel farm storage will be paid on all Pool wheat held on farms until December 2nd, 1929.

EMPIRE DEVELOPMENT

The campaign in certain quarters in Great Britain for the constitution of the Empire in a free trade unit, with tariff barriers against the rest of the world, has been answered by Australia in the report of the Prime Minister's tariff committee, which says that the abandonment of a protective tariff would have a disastrous effect on Australian industry by exposing domestic manufacturers to the unchecked competition of their British rivals. The recommendations of the committee are in accord with the views of individual members of the government on the subject, and it may fairly be assumed, therefore, that the question of Empire free trade is a dead issue in Australia.

Britain would undoubtedly profit under a policy of Empire free trade, but great as would be the benefits to commerce, British free traders would not sacrifice their fundamental principles by discrimination in favor of Empire products at the cost of imposing a tariff against the outside world. This is the expressed view of the present government, and it is shared by influential sections of both the opposing political parties.

The idea of the economic unity of the Empire has much in it to tempt the imagination and stir the sentiments, but it is a visionary and impracticable scheme that serves only to divert attention from the concrete facts, and delay the inauguration of measures for the development of Empire trade in harmony with fixed conditions.

Sir Robert Hadfield has recently suggested closer co-operation by the formation of an Empire Development Board, provided with ample funds, which would include representatives from all parts of the Empire and which would undertake a practical survey of natural resources, transport and communication, the establishment of new industries and the fostering of trade by every art known to salomanship.

Sir Robert faces the facts squarely. Britain is struggling with grave problems; each one of the Dominions and dependencies must shape its policy according to the economic necessities of the case, and recognizing the fixed nature of these necessities, Sir Robert would have the Empire Development Board composed of business men and experts, and absolutely non-political in its character.

The political significance and the material prosperity of the Empire as a whole are inseparably bound together, the development of our im-

The 1930 McLaughlin-Buick

The Greatest Success in all McLaughlin-Buick history!

NEVER, in McLaughlin-Buick's long, successful history, has any new model been accorded such spontaneous and enthusiastic acclaim as McLaughlin-Buick for 1930. From every province, from East and West, are already coming reports of the most amazing volume of sales ever recorded for any McLaughlin-Buick within its first two weeks. Hundreds of buyers did not even wait for demonstrations, but placed their orders unconditionally, upon their first inspection of this "greatest McLaughlin-Buick of them all." It was inevitable that this New 1930 McLaughlin-Buick . . . three great new series, larger, more powerful, more beautiful, more luxurious than ever . . . should win an instant and exceptional success. See it for yourself at our showrooms.

When resources may be greatly accelerated by systematic and persistent efforts, and this can be done most efficiently through a permanent organization.

WHEN DEARTH MEANS PROSPERITY

The way in which agriculture is out of line with modern industrial developments is plainly shown in the latest despatches from the wheat belt.

Wheat-growers are jubilant. The price of wheat is soaring; many farmers who had a very dark outlook are now expecting a prosperous harvest. And why? Because there is an abundant yield—because the fields are yielding more than the average-sized crop?

Not at all. The wheat crop is below normal. Bad weather conditions have cut down the expected yield. Hence prices are going up. Industry strives for the greatest possible production. Agriculture is compelled to point the other way. A time of plenty is apt to be a time of hardship. A time of dearth is apt to mean prosperity.

Right there is a "farm problem" worthy of a good deal of attention.

FINED FOR DRIVING WITH ONE LIGHT

A sequel to the auto car accident which occurred on the Macleod-Lethbridge Highway, on Sunday evening, about four miles East of Macleod, was witnessed in the Macleod Police Court on Monday morning when Mr. Pearson of Iron Springs, was charged by Sgt. Vise, A. P. P., for having only one light on his car at the time of the accident. Magistrate H. W. Bright fined the accused \$5.00 and costs.

The accident was evidently caused by Pearson, who was driving a Star Car, running into a Lethbridge car, driven by Jack Delf, by mistaking the distance between the cars, with only one light. Jack Delf had three companions with him, and one of them sitting in the back seat was badly cut by glass, but all the others escaped, which was rather a miracle as the cars were both badly smashed, especially the Star which is almost a total wreck.

COUNCIL MEETING — MUNICIPALITY OF BRIGHT

The council of the Bright Municipality at their monthly meeting on Saturday discussed Municipal matters from two till ten o'clock, the full Council being present. A number of contentious questions were disposed of and a large number of improvement accounts had to be carefully gone over before being passed for payment. One matter that has at different times taken up a great deal of time of the council, but which was finally settled at the meeting, is the diversion of the road at Ardenville, on the farm of T. J. Bailey. There is a big bog hole which has caused a great deal of trouble for many years, and the Municipality has spent a considerable amount of money in grading it up, evidently with no success. Some time ago a new road was surveyed on high and dry land and it has now been decided to grade this new road at once. When the old blue trail went over that road, this spot caused much trouble to motorists as well as to the local farmers.

LEATRICE JOY IN SMASHING DRAMA OF SOUTH SEAS— "TROPIC MADNESS" COMING THURSDAY AND FRIDAY TO THE EMPRESS THEATRE

Fans who remember her marvellous performance in "Manslaughter" and "The Ten Commandments" will be eager to see Leatrice Joy in what critics term her most exciting picture.

In the role of a daughter of London Society she moves from the drawing rooms of Mayfair to the untamed life of a savage tropic island. Her small son is the subject of her search and it is not until she has surmounted almost impossible obstacles that her search is rewarded.

VILMA BANKY NOW A FULL-FLEDGED STAR IN HER OWN RIGHT IN "THE AWAKENING"

"The Awakening" coming to the Empress Theatre on Monday and Tuesday, marks the first appearance of Vilma Banky, Samuel Goldwyn's "Hungarian Rhapsody" as a star in her own right. In this story of war and romance in Alsace, Miss Banky, previously famous as the co-starring partner of Ronald Colman, reaches the heights of screen recognition.

Frances Marion, one of the most famous photodramatists, wrote the story of "The Awakening" especially for Vilma Banky's first independent starring vehicle. It portrays Miss Banky, whose previous films have shown her in a succession of romances of the past, in the role of a simple Alsatian peasant girl meeting her first love in the days just preceding and immediately after the outbreak of the World War.

The conflict of emotions between this lovely peasant and the dashing German officer, who, having been attracted to her as a passing fancy, only to discover that he is deeply in love with her, makes "The Awakening" a tremendously moving human document. Hated by all the villagers who have always idolized her as their symbol of beautiful purity and whipped out of the village by her wealthy suitor, she flees

MACLEOD HIGH SCHOOL STUDENTS MAY WRITE SUPPLEMENTARY EXAMS AT PINCHER CREEK

Dr. O. F. Farnet, chairman of the Macleod School Board, co-operating with Mr. Shield, M. L. A., has been trying to arrange with the Department of Education, Edmonton, to have Macleod established as a centre for writing Supplementary Examinations by pupils who failed in certain subjects at the recent High School Exams. In previous years all pupils desiring to write these Exams, had to go to Lethbridge, from all over the south, just the one centre. The above named gentlemen, the Macleod Board and others concerned thought another centre should be established and that Macleod would be central for pupils from North and West.

However before they got in touch with the Department, the officials at Edmonton were considering the matter, and had practically decided to make Pincher Creek a centre, to accommodate pupils from the Crow's Nest Pass. Dr. Farnet received a letter on Tuesday morning from H. J. Speier, Registrar of the Department, stating that Pincher Creek had finally been selected, and that they could not very well make another centre at Macleod, as they only establish a limited number of centres for the convenience of pupils who have special reasons for writing these Exams. Pupils from Macleod will have the opportunity of writing, either at Pincher Creek or Lethbridge, which ever is most convenient.

REGULAR MEETING MACLEOD TOWN COUNCIL

Quick despatch of business characterized the meeting of the Macleod Town Council on Monday evening, when all members were present.

Mayor J. W. McDonald, K. C., presided, with Messrs. Stevens, Day, Tweed, Swinerton, Hoodless and McLeod.

A large number of monthly accounts were passed for payment, and

from her—shame, leaving her lover with the impression that she has committed suicide.

How the pair meet again in the midst of the horrors of war and how the very man who whipped her out of the village is the means of their salvation is skillfully developed in the story. In contrast with the terror and bloodshed of wartime, the early part of the film depicts the rural charm of the Alsatian countryside and the pastoral beauty of the village festivals, where pretty girls coquette with their rustic lovers and the handsome officers of the Uhlan regiment.

"RAMONA" REGARDED AS CLASSIC OF LITERATURE

Helen Hunt Jackson's story, "Ramona," which came to the Empress on Saturday is regarded as one of the present day American classics. When Mrs. Jackson decided to write "Ramona" she had a deliberate purpose and as high an aim as that associated in the writing of "Uncle Tom's Cabin." She did not realize that her story would prove one of America's most interesting romances.

"Ramona" would never have reached a 92nd printing had it not possessed unusual literary qualities. Today the book enjoys its largest sale and now comes the film that will give it perpetual life on the silver sheet. Inspiration Pictures and Edwin Carewe produced the story with Dolores Del Rio in the star and title role. It is regarded as one of the important pictures for the season and a vehicle entirely suited to the star's histrionic talents.

"THE KID'S CLEVER"

Glenn Tryon, star of Universal's, "The Kid's Clever," showing at the Empress Thursday and Friday, is one of the screen's staunchest advocates of clean comedy.

"It is not necessary to be suggestive or smutty in order to be funny," Tryon declares. "A check over the list of the world's leading comedians will show that scarcely any of them provoke laughs by means of suggestive stories or actions. Clean comedy has long ruled both in the American theatre as well as in the films."

Tryon is supported in "The Kid's Clever," by an excellent cast including Kathryn Crawford, Russell Simpson, Lloyd Whitlock, Joan Standing, Virginia Sale, Florence Turner, George Chandler, Max Asher and Stepin Fetchit. William James Craft directed.

Ready for School!

In less than two weeks the "big red schoolhouse" and the "little red schoolhouses" will again be humming away to the tune of "readin', writin', 'rithmetic." Back to schooltime should be an occasion for boys and girls to be walking, skipping, running on their way to school in new, smart, well-fitting clothes and shoes. Our Store is ready to look after them and our advertisement will suggest to you some of their needs.

RATEPAYERS MEETING ELUCIDATES ADVANTAGES TO BE DERIVED BY CONTRACTING WITH CALGARY POWER COMPANY TO SUPPLY LIGHT AND POWER TO TOWN OF MACLEOD

The largest representative meeting of ratepayers of the town of Macleod that has been seen for a long time was present on Tuesday evening in the Town Hall, called for the purpose of discussing the proposed contract with the Calgary Power Company to supply the town with electric light and power.

Mayor J. W. McDonald, K. C., presided, and he was supported on the platform by all the Councillors: Messrs. Swinerton, Day, Hoodless, Tweed, McLeod and Stevens. The Calgary Power Company representatives present were Messrs. R. B. Baxter, Managing Director; G. H. Thompson, Electrical Engineer and W. Anderson, Commercial Manager.

Mayor McDonald in opening the meeting gave a concise outline of the steps taken by the council to the present date towards supplying the needs of the town for light and power for the future in face of the condition of the engines in use in the present power plant. He showed that the life of the engines was near an end, and the council were up against three propositions: First—Contracting with the Calgary Power Company. Second—Purchasing new machinery, which would cost at least, \$40,000.00. Third—Taking a chance on the old engines. The third he said was out of the question, and there remained the first two. He then discussed the terms of the contract with the Power Company, and showed from actual figures that it would be to the advantage of the town in every way to accept the contract with the Power Company. He told the meeting that he and other members of the council had visited 11 towns recently which were now

receiving light and power from the Company, and they ascertained from the officials of these towns that they were receiving the greatest satisfaction from the Company. He also read a letter from the Mayor of Red Deer which expressed the entire satisfaction of that city with the supply of light and power, especially power, which they could now offer at prices to attract industries to the city, such as the Eddy Match Company. Mayor McDonald stated that if Macleod had the power to offer the same as Red Deer there were, he believed, industries available that would be established in Macleod. He said that the cost of light and power at present was about \$13,500.00 a year, and would be about the same from the Power Company, but there would be a saving of depreciation on the plant of about \$4,000.00 a year, which he expected would very shortly reduce the cost of light to the consumer from 14 cents to 12 cents.

Questions being solicited from ratepayers, J. L. Fawcett, barrister, asked several with regard to the cost, and in his remarks stated that in his opinion, as a very large proportion of the consumers were not taxpayers, he did not believe in the policy of reducing the price of light to the consumers at the expense of the taxpayer; that the taxpayer should get the first benefit by a reduction of taxes. In reply to Mr. Fawcett's questions and remarks the Mayor stated that the Council were of the same opinion as to the reduction of taxes, and that is what they have been doing during the past year or two instead of making bigger reductions in the price of light. A. F. Grady and W. J. Ryan also asked one or two questions.

Mr. Baxter then addressed the meeting and told of the extensive territory over which the Company now supplied power and light. From Magrath in the South to 40 miles North of Edmonton they now had a continuous line of wires, supplying

over 100 towns and cities. He told of the large number of small towns now being lighted, and which could not possibly afford to produce their own light power. He showed that the Hydro Company could supply power at a much lower rate than any town could produce it on account of their enormous facilities for production. Mr. Baxter pointed out that Macleod was happily situated in the position that power could be supplied either from the north line from Calgary to Macleod, or from the East by the Calgary and Lethbridge line.

A large number of interesting pictures were shown of the Hydro Works by Mr. Anderson at the lantern, Mr. Baxter explaining each picture as it was thrown on the screen.

Altogether the meeting logically elucidated the advantages to be derived by entering into a contract with the Power Company.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION—GIVE ALL THE CHILDREN A CHANCE

It is accepted in all civilized countries that every child should be given a chance to develop the physical and mental capacities with which he is born. Some children start out in life with a considerable handicap. If they are born into a poor family, food may be scarce or of questionable quality, the home may lack sanitary conveniences, there may be overcrowding, lack of play-space, and many other additional disadvantages. The children born into a wealthy home may be equally unfortunate, because we often find in the homes of the well-to-do, children who are not living healthy lives. This is chiefly the fault of the parents who spoil the child.

The best thing which can happen to any child is to have parents who know something about child training. Love of children and a desire to do the most for them do not take the place of knowledge. We would not think of entrusting the operation of a machine, or the erection of a building or bridge to a man who was merely anxious to run the machine or to build something. We place such duties in the hands of a person who has been trained to do the particular type of work.

Parents do not know by instinct the proper way in which to bring up a child. Some of them do gain knowledge from experience, and some of them are willing and anxious to learn from others. The upbringing of a child is a serious and, sometimes, a difficult matter. If it is to be done properly it requires training and preparation for the task. To the person who feels that our ancestors got along very well and reared families without training we can only say that the number of unhappy individuals, the number who have never adjusted themselves to life, the many who find life a burden, the group who are a nuisance to others, to say nothing of the few who have really mental and physical health, are ample proof that the old system was not a success.

Parent Education is a real need; it is not a fad but an evidence of the importance of proper preparation in order to ensure that all children shall be given their chance.

Questions, concerning Health, addressed to the Canadian Medical Association, 184 College Street, will be answered personally by letter.

Don't blame the "modern" artist for painting a horse to resemble a wrecked goods box. If your eyes were like his, a horse would look that way to you.

Nature, protecting our self-respect, equipped us to notice how many are worse than we are—not how many are better. And that's why the world seems rotten.

Blessed is the poor man. The woman he jilts never needs any heart balm.

Americans eat 155 pounds of pork and beef per capita, and no telling how many hot dogs.

McCORMICK-DEERING NEWS

Published by
C. E. TWEED
The Farm Equipment Man
House Phone 41 Office Phone 157
Vol. 1, No. 19 Macleod Thursday, August 22, 1929

Watch for the "News" each week. Suggestions and news items invited.

Claude Tweed, Editor

Over here we hear a good deal about the Flanders poppy—and all to the good. Farmers in Flanders detect the flower because it multiplies so rapidly and becomes a serious pest to the crops.

Do you know that a McCormick-Deering Potato Digger will reduce the per-bush cost of producing potatoes wherever they are grown on a commercial scale? Figured on a strictly dollars and cents basis (including first cost, interest on investment, etc.), a McCormick-Deering Potato Digger is a machine that pays. Besides that, look at all the hard work it does away with.

Judge: "What is your name?" Prisoner: "Joshua, your honor." Judge: "Oh, Joshua! Are you the Joshua who made the sun stand still?" Prisoner: "No, your honor—I'm the Joshua who made the moon shine."

According to the latest and most worthy statistics, the population of the world is about 2,400,000,000.

The McCormick-Deering ball-bearing cylinder without doubt is the most important step in thrasher building in the last ten years. No more constant watching and oiling. No overheated bearings and expensive delays.

One of our good customers was talking to us the other day and told one on himself. Being on himself, he would not let us use his name. It seems he was

kept awake two or three nights handrunning by a sort of low, moaning sound near the barn. He investigated several times before he found that the noise was caused by the wind revolving the roller bearing stacker fan in his McCormick-Deering Thrasher.

"I want to buy a pair of shoes for my little girl!" "Yes, mam. Right this way. French kid?" "I should say not. She is my only daughter!"

You, know, of course, the prominent part the power take-off is playing these days, driving binders, corn pickers, sprayers, etc., but do you know that McCormick-Deering were the first tractors to be equipped with this highly useful and valuable device. On them it is not an attachment—an afterthought—but was provided for in the drafting room, before the first experimental machine was built, and every McCormick-Deering Tractor, old or new, has facilities for attaching a power take-off, right where a take-off should be to permit easy hitching, turning, etc.

"George, dear, don't come over for a few days, at least. My father strenuously objects to you," said golden haired Gladys.

"On what grounds does your pa object to me, I want to know," returned the indignant boy.

"Well on almost any part of our quarter-section!"

Farming is the most important industry in the world, and supplying the tools that make farming profitable is nothing to be ashamed of, either.

Cook Car Grocery Buying

Many threshermen of this district have availed themselves of advantageous grocery buying from us in past years. Advantages in dealing with us increase each year as our grocery business steadily increases and volume buying by us gives us closer prices from the wholesaler, which profits we share with our patrons. Threshermen—Don't fail to get in on our special prices and accommodation regarding cook car grocery buying.

THE WHITE HALL

LOCAL AND PERSONAL NEWS

Born—To Mr. and Mrs. W. J. morning, returning on Sunday evening on Sunday, August 18th, a son, ning.

T. H. Hewitt, of Coleman, was a Macleod visitor on Saturday last.

Geoff Young, of Consort, Alta., is spending his holidays with his parents, Mr. and Mrs. Arthur Young.

Mr. and Mrs. Geo. Fields and family left on Thursday of last week for the Coast where they will enjoy a short holiday.

Mr. and Mrs. W. G. Andrews accompanied by their daughter Miss Lillian and Miss Ruth McLean made an auto trip to Calgary on Friday

Miss Olive Lambert is in Calgary visiting friends.

Mrs. J. J. Kendall and Master Jack and Walter are at Vancouver, B. C., spending a month's vacation.

Mr. and Mrs. James Young, Macleod, have as their guest this week, Mrs. Mellor-Langdale of Lethbridge.

Mr. and Mrs. J. T. Doney returned last week from a seven-weeks holiday spent in visiting relatives and friends at Montreal, Quebec,

Toronto and Kingston. Mr. Doney's health is much improved.

Mrs. Arthur Young and Geoff spent Sunday at Waterton Lakes Park.

Mrs. W. T. Clarke and daughter Marion have returned home to Parkland, Alta., after spending two weeks visiting Mr. and Mrs. C. Clarke.

Frank Stockton, accompanied by Mr. and Mrs. Ralph Townsend and Miss Marjorie Denn, motored to Waterton Lakes Park on Saturday.

E. Forster Brown, Secretary-Treasurer of the Town of Macleod, was a business visitor in Calgary on Saturday.

W. Lingings, of Cadogan, is spending his holidays at the home of Mr. and Mrs. R. McCrea. Mrs. Lingings and baby daughter will accompany him on his return home.

Clever capture of a thief was made by Chief of Police Pringle on Saturday night, when a complaint was made by a farmer's wife from near Graman that a parcel containing a new dress had been lifted in a cafe where she was having supper. The culprit, a woman from Edmonton, was quickly found by the chief, and immediately brought before Police Magistrate H. W. Bright, who, after hearing the evidence, found the charge proven and imposed a fine of \$5 and costs.

The Rev. Dr. M. White, of Calgary, Synodical Superintendent of Missions for the Presbyterian Church in Alberta, was a visitor in the Macleod District over the weekend. Dr. White was making an official inspection of the Stand Off and McBride Lake Mission Fields, which has been conducted by Mr. Wood Student Missionary, during the summer months. Dr. White conducted Communion services at both points, at which a large number were present and took part, he also baptized five infants at each service. He was greatly delighted with the attendance at both places, and complimented Mr. Wood on the evident success of his labors during the season. Mr. Wood leaves early in September, returning to college to

complete his training for the ministry.

Miss Carrie McLaren of Lethbridge was the guest over the weekend of Mrs. Ray Baker, Macleod.

Mrs. A. L. and Miss Florence McKenzie left on Friday for a month's holiday trip to Pacific Coast cities.

The Rev. E. Barnes and Mrs. Barnes of Graman were visitors in Macleod on Monday.

Mrs. H. G. Napper, of Brandon, Manitoba, en route home from the Coast, was a Macleod visitor last week, the guest of Mrs. T. Brown.

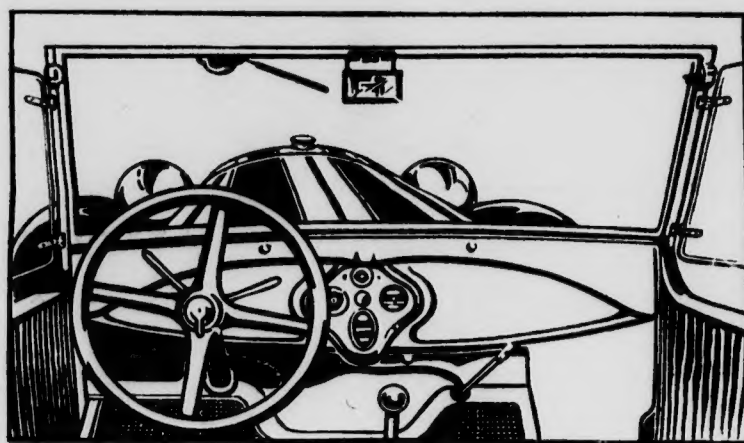

Mrs. Frank Seymour of Calgary, formerly of Macleod, is the guest this week of Mr. and Mrs. John Ringland.

Mr. and Mrs. T. Turnbull, of the hospital staff returned on Thursday of last week from a tour around the Banff-Windermere Highway.

The Rev. Alex Ferguson accompanied by Mrs. Ferguson, Miss Ida and Miss Lorna, are holidaying at Banff this week. Miss Ida has just returned from Summer School at Edmonton.

A delightful young peoples' bridge party and handkerchief shower was given last Thursday evening by Miss Ruth Armer at her home on 21st Street, the guest of honor being Miss Jean Ringland, who left on Saturday for Calgary to reside there. Each of the guests gave a handkerchief, which was accompanied by an original verse. Three tables of bridge were played during the first part of the evening, the successful prize winners being, 1st Miss Jean Ringland and consolation Miss May Grier. After delicious refreshments were served by the young hostesses, the company enjoyed the remainder of the evening in music and dancing. The young ladies present were: Misses Jean Ringland, Edna Wood, Minnie Perry, May Grier, Jessie Little, Josie DeMan, Elsie Pinder, Mary Pinder, Irene Tweed, Helen Sandicthe (Graman), Millie, Ruth and Edith Armer, Mrs. T. F. Dixon.

THE FORD CAR SHATTERPROOF GLASS WINDSHIELD

Protection with Clear Vision

THE shatterproof glass windshield on all Ford cars is one of many important safety features that contribute to the pleasure and comfort of all Ford Model "A" owners. The peace of mind and feeling of security made possible by this factor of safety is further enhanced by the clear vision roof pillars, six-brake system, $\frac{3}{4}$ irreversible steering, one piece gas tank and all-steel body.

The Ford car shatterproof glass windshield does not splinter under the impetus of a direct blow. In case of a collision there is no flying glass to endanger driver or passengers.

The vision is clear and unobstructed with the Ford shatterproof glass windshield. At the same time the driver realizes that this windshield is a protection and a factor in creating driving confidence and owner enthusiasm.

WINTER RYE AS A FORAGE CROP

As a grain producer winter rye is open to the grave drawback that it is a persistent volunteer, becoming an objectionable impurity in crops of other cereals, particularly wheat. The objection has little force where the crop is grown for hay or pasture.

Its peculiar adaptability is in providing late-autumn and early-spring pasture. It may also be made to furnish summer pasture as well if sown in June or July and grazed closely enough to prevent its jointing during the first season.

In certain seedling-down tests on the Beaverledge Substation winter rye used as a nurse crop has been seeded at fortnightly intervals from the middle of May onward, the areas being grazed closely until August, producing a considerable amount of excellent feed. However, there is not ordinarily much net advantage in thus substituting rye for grass or sweet clover save to extend the grazing at each end. This may well be done with six pecks of winter rye drilled in July or very early August, (depending upon soil, season and locality,) and pastured judiciously in autumn, then again in the second season until about the first of June, after which it becomes rather unpalatable. The field may then be left to produce a hay crop or two or a grain crop if desired or it may be plowed at once and either sown to oats for green feed or summer-fallowed. Used in this way, rye may well serve in helping to clean the land.

A mixture of oats and winter rye makes a good hog pasture, the oats producing the bulk of the early pasture while the rye comes to its support later on.

Where bulk rather than quality is the prime object, winter rye may be employed as a hay crop. If cut as soon as it heads out the quality will be fair. In a number of cases the writer has known horses to refuse winter-rye hay at first but afterwards to change their minds and eat it well, working quite satisfactorily upon it.

CHRIST CHURCH (ANGELICAN)

Services Sunday, August 25, 1929: 11 a. m.—Morning Prayer and Sermon. 7:30 p. m.—Evensong and Sermon. F. Randall Powell, Rector.

RATHWELL NEWS
